### **OUR STORY**

#### Our story begins in 1971, when Gressingham's founders, **Maurice and Miriam Buchanan, moved from Northern** Ireland and established their farm in Debach, Suffolk.

Maurice built two sheds by hand and started farming chickens, but they soon realised they wanted to try something different.

They got in contact with a small-scale duck farmer in the Lake District who had begun to develop a new, tasty breed of duck - a cross between the succulent Pekin duck and the flavoursome Wild Mallard.

In 1989, the first Gressingham Ducks arrived at the family farm in Debach - by train! 200 ducklings were taken on the train from Peterborough and were picked up in Cambridge by Maurice and Miriam. Over the following two years, they perfected the breed and the remarkable Gressingham Duck was born.

Fast-forward a few years and sons Geoff and William Buchanan joined the family business. having studied agriculture and worked elsewhere in the sector before settling down in Suffolk. They are still in charge of the family farm today.

One generation on, the farms entity of the business is run under the Green Label Poultry name and rears the delicious Gressingham Duck from Red Tractor assured farms in Great Britain along with turkeys for Christmas. This reputation for exceptional taste has made Gressingham the duck of choice for all major UK retailers and many independent stockists and specialist butchers, as well as being featured on the menus of top restaurants nationwide.

### OUR KEY **STRENGTHS**

- Strong Gressingham brand
- British production
- Welfare accreditations
- Wide product range
- Market knowledge
- High skill levels
- Innovative
- Service levels
- Understanding of the **UK market**

- Fast decision making to seize opportunities
- Dominant position in the UK retail market
- Established supplier/ customer networks
- Ongoing positive bank support
- Long term partnerships in UK and Europe

One generation on, we are still rearing the delicious **Gressingham Duck from our Red Tractor assured farms** in Great Britain along with turkeys for Christmas.

### GREEN LABEL POULTRY

Green Label Poultry is the farms operation of the Gressingham business. The structure of the farms is broken down as follows:

04

## WELFARE

We are committed to the welfare of our poultry – the ducks and turkeys are bred, hatched and reared on Red Tractor assured farms across the UK.

The ducks are reared free-to-roam in light, airy barns with access to water for bathing, natural light and fresh air. They have a fresh bedding of straw once per day and continuous feed and fresh water throughout the day.

# We are committed to the welfare of our poultry. 77

#### **GREEN LABEL POULTRY PROVIDES:**

- Day-old ducklings every 7 weeks
- Feed
- Veterinary care and medication
- Catching labour
- Transport to and from the farm
- Technical advice and support
- Accreditation and training

#### CONTRACT **GROWER PROVIDES:**

- Building with equipment
- Straw and straw storage
- Water and water storage Electricity

- Daily information on our Farms app
- Auto weighers / windows at 3% floor area

Gressingham

2 IMPRESSIVELY EASY DUCK BREASTS

1 SCORE & 2 SEAR IN SEASON 2 THE PAN 3 IN OVEN

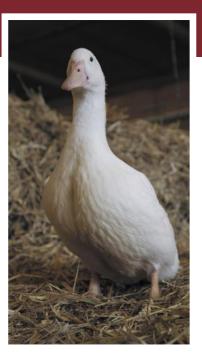

Green Label Poultry provides regular welfare training from our team of vets and assists staff to achieve their Poultry Passports.

#### FARMS APP

The app we use is a brilliant reporting tool used to log daily data which saves admin time, identifies any problems quickly, assists with slaughter planning and ensures a quick turnaround on costings and performance data.

		Flocks				
Flock Code	Place Date	Place No.	Kill Date	Kill Age	Age Today	Weight
BPS11-2231-MGC-A	2.8.22	9,500.00			24	1.71
BPS12-2231-MGC-A	2.8.22	9,500.00			24	1.66
BPS13-2231-MGC-A	2.8.22	9,500.00			24	1.62

#### PAYMENT

The payment structure will be based on a FCR contract. Feed cost and grower payment will be reviewed every 6 months.

#### FEED

A new feed ordering programme has been implemented over the past 18 months. It can predict feed requirements, giving a theoretical balance of feed on site each day and showing when the next feed delivery is required. It enables whole crop ordering at the placement of birds and avoids feed wastage.

#### **ACCREDITATION & TRAINING**

All ducks and turkeys are grown to Red Tractor standard which covers the whole process from farms and hatcheries to the catching process, transport and then lairage and slaughter. Green Label Poultry provides regular welfare training from our team of vets and assists staff to achieve their Poultry Passports. Regular first aid training is given and all sites have at least one Poultry Welfare Officer.

# All ducks and turkeys are grown to Red Tractor standard.
